REMARKABLE ESCAPE FROM DEATH BY PASSENGERS

NEW YORK, April 12.—Passengers on an elevated train had remarkable escapes from death today when they were catapulted to the street, at a distance of 25 feet in the midst of debris of the car in which they had been bound to work.

The front car of a train was knocked off the elevated structure on the Ninth Avenue line near Trinity church by a collision with another train and demolished. The wreckage was wedged in between the elevated structure and the side of a brick building, a dozen feet away. The 15 persons in the demolished car slipped through the debris in the street and about a dozen of them were injured, the only woman seriously hurt. The motorman was missing after the accident and search of the debris failed to reveal trace of him. Nearby shopkeepers said they saw a man in uniform running away after the car fell.

Millerand May Not Attend Conference

PARIS, April 12.—The Earl of Derby, British ambassador to France, delivered to Premier Millerand at 11 o'clock this afternoon the British reply to the French premier's note of last evening. Mr. Millerand refused to discuss the contents of the note with the newspaper correspondents.

Millerand May Not Attend Conference

PARIS, April 12.—The Associated Press—Nothing has been decided as to Premier Millerand's attendance at the supreme council meeting at San Remo, and it was declared today in a reliable source that if the conference there was to discuss the misunderstanding between France and Great Britain he would not go at all.

A personal talk on the subject with Premier Lloyd George would be welcomed by the French premier, it is said. Mr. Lloyd George could find it convenient to come to Paris, but it is considered in official circles that as the point at issue interests France and Great Britain only, it is needless to discuss it before the representatives of the other powers.

It is held here that the British government in persisting in the discussion is putting the matter in a form where it is difficult to see what satisfaction it is possible to give. France has not been asked to evacuate Frankfurt, and the impression is gaining ground. It was indicated that what is sought above all is to displace France.

The Earl of Derby, Great Britain's ambassador to France, attended the council of ambassadors here today. The Harbord treaty was the sole matter under discussion.

WASHINGTON, D. C., April 12.—(By the Associated Press)—Two opposing reports on the long congressional investigation of the construction of 22 army camps and cantonments were submitted today to the house by the war expenditures committee and debated for several hours. Attorney General Palmer returned to Washington and studied reports as to the situation so as to determine whether action by the department of justice was warranted.

Announcement of Chairman Cullen of senate interstate commerce committee, scheduled to begin tomorrow, would not be conducted at this time as it was desired to give the new railroad labor board an opportunity to set the strike.

An announcement from the White House that the members of the labor board would be appointed within 24 hours. Senator Frelinghuysen, Republican, New Jersey, told the senate the strike was nearing "real relief."

No Probe By The Senate

WASHINGTON, D. C., April 12.—There will be no investigation of the railroad strike for the present by the senate interstate commerce committee, announced today after receiving assurances at the White House that the railroad labor board would be appointed within 24 hours.

COLUMBUS, O., April 12.—Return of switchmen to work in the local yards in any considerable number did not materialize today. Of 150 men employed on the first shift in the Pennsylvania yards not more than sixty showed up for work and several of these quit before noon. Company officials say they do not expect any of the second or third shift men to return this afternoon and evening. Other yards were idle, none of the men returning.

NEW YORK, April 12.—A score of army trucks manned by armed soldiers from Camp Merritt were used today to unload and transport mail in Jersey City. Mayor Hague, "in the name of suffering humanity," appealed to the strikers to arbitrate.

CLEVELAND, O., April 12.—Frank J. O'Rourke, president of the new Cleveland Yachtmen's Association, this afternoon said that 90 percent, or 1,850 men of the Switchmen's Union of North America have deserted to the new body. He said that while a very settlement was desired, he would not treat with W. G. Lee, president of the Brotherhood of Railroad Trainmen.

A committee of the new organization, he said, was in Washington seeking government mediation and a committee of Cleveland strikers called on A. T. Euclid, local federal conciliator, for the same purpose.

NEW YORK, April 12.—The Central Railroad of New Jersey suspended all passenger service at noon today when agents were ordered to stop selling tickets. The road enters the state of New Jersey and the suspension order affects approximately 55,000 commuters.

PITTSBURGH, Pa., April 12.—Continuation of passenger traffic on lines entering Pittsburgh appeared as a possibility of the rail strike at noon today with the reports that shippers, engineers and firemen were holding meetings to discuss the advisability of striking with the yardmen, according to strike leaders.

Engineers and firemen employed in the Conway yards of the Pennsylvania railroad yard at a meeting this morning agreed to quit work at one o'clock, according to reports from Rochester, Pa., reaching here. It is said 800 men will walk out and passenger service will be hampered as many of the engine crews of passenger locomotives were at the meeting.

CHICAGO, April 12.—Developments west of Pittsburgh in the switchmen's membership strike today were reported by railroad headquarters officials as pointing toward a gradual dissolution of the insurgent forces but in the east, where the mail train was held in several districts by trainmen, the situation assumed a more serious aspect.

In the central and far west numerous reports of defections from the strikers' ranks follow the day of the first four days' news of the strike, where the switchmen voted to return to work.

At Chicago, officials of several of the western railroad officials were expected to begin work on Monday at the city's stock yards, which included a section of the new union's headquarters.

At St. Louis, headquarters of the Brotherhood of Railroad Trainmen, the switchmen voted to return to work.

PRINCIPLES
OUTLINED
BY LABOR
UNION CHIEFS

WASHINGTON, April 12.—Organized labor's views on industrial problems likely to enter into the coming political campaign are presented in detail in reply to a questionnaire submitted by the advisory committee on industrial relations of the republican national committee. The reply made public today at American Federation of Labor headquarters is signed by Samuel Gompers, Matthew Woll, and Frank Morris, as members of the platform committee of the national non-partisan campaign of the federation.

Acceptance of the principles enunciated in the reply was regarded by political observers here as determining organized labor's support of candidates in the November elections. These principles include:

Acceptance of the eight-hour day and the six-day week, with Saturday half holiday.

Recognition of American wage earners' right to organize in accordance with their own judgment.

Continued exemption of labor organizations from anti-trust laws.

Acceptance of the right of employees to choose their own representatives from within or without the plant.

Recognition of the right of employees to strike.

Abandonment of the use of the injunction in labor disputes.

Establishment of free federal employment agencies in the administration of which labor would have a voice.

Payment of such wages as to render old age and retirement pensions unnecessary.

Equal pay for equal work.

Minimum age of 16 years for employment of children.

Discussion of federal workmen's compensation acts.

Elimination of company welfare and uplift organizations and substitution of welfare work as conducted by labor organizations.

Other phases of the industrial situation covered by the questionnaire and labor's replies include the principles of the Kansas court of industrial relations; the function of the secondary strike or boycott; right of government employees to organize and to strike; establishment of federal arbitration boards and encouragement of their use in wage controversies.

"The general principles in what is known as the Kansas court of industrial relations law," the labor commission asserted, "are principles that are so antithetical to the rights of workers in the extreme and repugnant to every American concept of justice, freedom and democracy."

"The secondary strike," or boycott, the reply stated, has been resorted to by tactics of employers left to labor no other course.

Defending the right of government workers to organize, the labor committee said the right of such workers to strike "should be maintained, but there should never be occasion to resort to it."

LEGAL PROCEEDINGS AGAINST
CREEL AND BABSON ARE
RECOMMENDED BY COMMITTEE

WASHINGTON, April 12.—Legal proceedings by the government against Creel and Babson, former chairman of the House Committee on Public Information, are recommended by the House Committee on Public Information. The committee, which is headed by Senator Stephen M. Reed, has recommended that the House take action against the two men. The committee's report states that the two men have been guilty of "gross negligence" in the handling of the committee's affairs. The report also states that the two men have been guilty of "gross misconduct" in the handling of the committee's affairs.

Another alleged abuse of government funds (charged by the report) was printing of 20,141,282 speeches of federal officials at an expense of \$122,288 to the government. Paper consumed totaled 1,511,000 pounds. As numbers of congressmen may pay for the copies of their speeches the report says the charges above, resulting from the free printing of other federal officials' speeches should stop.

The report says the committee under the power to supervise government printing investigated 291 journals, magazines and periodicals and consumed 141 of a saving of \$20,000 annually. Eight army and navy newspapers and magazines were suppressed at the front line trenches.

While considering that many war publications were necessary and helpful during the war, the report says other activities for the front line trenches were inspired by the committee's activities. It says the committee's activities were inspired by the committee's activities. It says the committee's activities were inspired by the committee's activities.

The law giving the printing committee control over government publications, the report declares, "imposed the heaviest possible burden on the country has ever imposed."

There is no doubt the report says that a certain degree of control of the army and navy had their publications well advanced. It says the country with an all-embracing chain of newspapers and magazines for the purpose of spreading and focusing their publicity and internationalist domination upon the United States.

Regarding the transfer of the office of public relations from the War Department to the War Relocation Authority, the report says that the War Department had been in the habit of paying the government for the use of its facilities.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive coated tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. The present little tablets do the good that calomel does, but have no bad after effects. They do not irritate the teeth like the strong liquids or calomel. They take hold of the trouble and gently remove it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place.

"Bismuth," "arsenic" and other toxic drugs come from arsenic and a few other liver. Take Dr. Edwards' Olive Tablets when you feel "liver" and "bismuth." They "clean" the liver and "remove" poisons. 10c a box.

HOW TO RAISE BABY CHICKS

Put Avicol in the drinking water.

Most people lose half of every hatchling to cholera. Chick cholera is a terrible disease. The F. S. Government states that over half the chicks hatched die from this cause.

Dear Miss Wise—I am a school boy. I would like for you to tell me some way to make my hair stay combed. My hair is light brown and refuses to stay combed. When I wash it, and comb it, it is all the worse. After it dries out. Please give me your advice.

A. C. N.

If it refuses to part why not wear it in a bun? You can train it any way if you have patience and try hard enough. The next time you have it trimmed, have the barber part it in the side and start it in the right direction and I think you can manage it all right. Some boys wear a hair string at night, others keep their hair slightly oiled until it gets "set."

FULLERTON, KY.—Dear Miss Wise—I am true that Charlie Chaplin and his wife Mildred Harris, have separated?

DOLLY.

I guess they have. Movie stars are always changing husbands and wives.

Dear Dolly—I have kept company with a man for two years. He is a widower and is the only heart I ever found. He hasn't proposed yet, nor has he hinted that he ever intends to propose and he is now beginning to stifle me, so guess I will have to give him up. I have a good position and am a good dresser.

IN EARNEST.

It won't be necessary to give him up just yet, if you haven't any one else in view. His conduct may be due to the fact that you are too anxious to get married. He may propose, if given time.

Dear Miss Wise—Could you tell me if there is a place in Portsmouth where they make fluffy rugs out of old

do and about the rest. Also will a tan dye green.

YOURS,
Inquiries at the local dry cleaning establishment. If the rug can be dyed at all I believe it would color dark green all right.

LUCASVILLE, OH.—Miss Dolly Wise—Is there a bridge near Portsmouth that one can drive across, that crosses the Ohio river into Kentucky, or does one have to cross on the ferry?

AN OUT-OF-TOWN-KID.

You will have to cross on the ferry.

Dear Miss Wise—Is there any place in your city where I can get high boots removed and moccasins put on a pair of shoes? Can you tell me how to remove a grease spot from a grey silk poplin skirt, without having a spot? I washed a spot with lye soap on a blue skirt and it left a white spot which looked as bad as the grease did.

LUCASVILLE, OH.—LADY.

Any shoe repair man can change high boots to low ones. Removing grease will remove grease spots. Be careful of the when using it. Soap will not leave a white spot on blue serge. You probably put too much on and the soap is still there. Put the skirt on the ironing board and rub with a wet cloth until you get all the soap out, then press.

Why Measles May Be Dangerous

This is No. 3 of a series of advertisements, prepared by a competent physician, explaining how certain diseases which attack the air passages—such as Pneumonia, Influenza, Whooping Cough, Measles or even a long continued Cold—often leave their victims in an extremely weakened state, thus affording a favorable foothold for a invading germ. And how Vicks' VapoRub may be of value in this condition.

Few of us escape measles—it is one of the commonest of childhood diseases. Every mother knows the symptoms, but the mistake that most mothers make is in failing to realize that the child is not fully recovered after the eruption and fever disappear. The air passages are still inflamed and if this inflammation is not cleared up, the air passages may be weakened, thus paving the way for pneumonia or serious disease of the lungs.

Nightly applications of Vicks' VapoRub will aid nature in relieving this inflammation. Because Vicks acts locally by stimulation thru the skin to draw out the inflammation, attract the blood away from the congested spots and relieve the cough. In addition, the medicinal ingredients of Vicks are vaporized by the body heat. These vapors are breathed in all night long, bringing the medication to bear directly upon the inflamed areas.

Children's digestions are delicate—easily disturbed by too much "dosing." Vicks, therefore, is particularly recommended since it is externally applied and so can be used often and freely without the slightest harmful effects.

Vicks should be rubbed in over the throat and chest until the skin is red—then spread on thickly and covered with hot flannel cloths. Leave the clothing loose around the neck and the bed clothes arranged in the form of a funnel so the vapors arising may be freely inhaled. If the cough is annoying, swallow a small bit of Vicks the size of a pea.

Samples to new users will be sent free on request to the Vicks Chemical Company, 233 Broad Street, Greenboro, N. C.

RAILWAY STRIKE HITS PORTSMOUTH

BULLETIN

At 1:30 this afternoon it was stated that the N. and W. offices had several additional crews had joined the strike and the number of men out is now estimated by them at 100.

The nationwide strike inaugurated recently by railroad switchmen in various parts of the country has adversely affected Portsmouth, as a number of switchmen, yard conductors, and engine men have joined the strike at Portsmouth by the N. and W. joined the strike at 11 o'clock yesterday morning, when they quit their posts. The N. and W. estimates the number out Sunday as 75.

As a result, only a few through freight trains will be handled on this division. Local freight trains will be held for at present and there will be no interruption to the passenger service, this schedule to be maintained if at all possible, it was stated at division headquarters of the N. and W. this morning.

It was also stated that supplies, principally coal, will be delivered to coal plants just as long as possible in order that they will be able to remain in operation. The supply of coal at the waterworks plant is very limited, supply being cut off from a standing, but not having sufficient coal to keep the pumps going, as the N. and W. will be able to deliver coal to the plant.

MEN CLAIM BETWEEN 175 AND 200 ARE OUT

A meeting of the striking switchmen and yardmen of the N. and W. was held at nine o'clock this morning in the N. and W. building, 1111 Broadway. At this meeting temporary officers were elected and they will serve until other officers are elected. C. J. Atkinson was elected temporary chairman and after this morning's meeting said that the men were all out and that this number was between 175 and 200.

According to an official of the Brotherhood of Railway Trainmen, the men who are on strike are members of the B. of R. T., but are not striking as the men refused to state.

LOCAL COLORED GIRL IS BEATEN BY ROBBERS; IN BAD CONDITION

Relatives here received word Saturday and Sunday of perhaps fatal injuries sustained by Miss Nannie Crenshaw, 1129 Gay street, the young woman being attacked Saturday when the office in which she worked in Detroit was entered by robbers, who beat her into insensibility before they started their raid on the office. Word of the injuries was received Saturday night from Ray Swan of Dayton, he telephoning relatives here after he received a telegram from Detroit. Swan is a brother-in-law of the injured girl who is a stenographer.

Only meager facts could be obtained by relatives Saturday night when they received the word Miss Crenshaw was seriously injured and for them to come at once. The mother, Mrs. Crenshaw, and her daughter, Mrs. Mary Crenshaw, are now in Detroit.

With all of the excitement and confusion attending the robbery, the victim, Miss Crenshaw, is reported to be in a very bad condition. She is now in the hospital, and her condition is reported to be very serious.

It is also stated in division headquarters that so far no other trainmen have joined the strike. Rumors were all out today that from 200 to 300 men were out, but N. and W. officials denied this and stated that no more than 75 men were out.

At the B. and O. offices this morning, Agent G. E. Wharf stated that all the B. and O. switchmen, brakemen and engine men were on the job as usual.

So far we have not been affected here by the strike," Mr. Wharf said.

Partial Embargo On Freight

"No freight is being received for Columbus or Cincinnati, or for any other points from these points."

This notice was posted in N. and W. division headquarters in East Portsmouth, Monday, and is a result of the switchmen's strike.

At the C. and O. office Agent D. A. Gurnes said that this road was still accepting freight to all points.

Freight to local points is being accepted by the N. and W.

Here Is One Thing That Is Absolutely Impossible

Rheumatism Has Never Been Cured by Liniments or Lotions, and Never Will Be.

You never know of Rheumatism—the most painful source of suffering—being cured by liniments, lotions or any external applications. And you must know that Rheumatism is a disease of the blood, and it never can be cured by anything but a blood-purifying medicine.

But why be satisfied with temporary relief which will come only to be followed by a return of the pain which increased with each return, when there is permanent relief within your reach. Science has proven that Rheumatism is a disordered condition of the blood. How then can it be cured? The answer is simple. SWAT THE FLY

For the sake of the young babies who will go through the heat of this coming summer do "Swat That Fly" which will only add to the baby's discomfort, tease its tender little body with germs covered feet, annoy it with insistent buzzing, and finally infect it with a fatal malady.

Even if green flies didn't matter in the scheme of things no one wants a baby to suffer for the carelessness of others.

Take these precautions and assure the babyhood of Portsmouth of a happy season.

Large Crowd At All Saints'

All Saints' church was crowded last night when the choir of the parish repeated the Easter music and the pastor spoke on the work of Mr. Moore Hickey who is conducting a mission of healing in the Diocese this week. At the close of the services the choir sang a festival hymn before the altar as an act of thanks giving and praise for the resurrection of our Lord Jesus Christ. The number of men present was exceptionally large. The close of the Octave

Witnessed one of the most successful Easter seasons in the history of the parish. The Easter offering amounted to \$1,500.

BREAK IN STRIKERS' RANKS IN WEST; EAST FACES CRISIS

COLUMBUS SEAT OF THE FIRST BIG BREAK IN STRIKE

CHICAGO, April 12.—Developments out of Pittsburgh in the switchmen's unauthorized strike today were regarded by railroad brotherhood officials as indicating a general dissolution of the movement, but in the east, where the walkout was joined in several districts by trainmen, the situation assumed a more serious aspect.

In the central and far west numerous reports of defections from the strikers' ranks follow the report of the first important break at Columbus, where 200 switchmen voted to return to work.

At Chicago, admitted keystone of the railroad, railroad officials were "pressed" to return to the strike, which included recognition of the new union formed by dissenters from the Brotherhood of Railroad Trainmen and the Switchmen's Union of North America.

In the settlement offer, prepared by John Gorman, president of the Chicago Yardmen's Association, who called the strike, at least one railroad concession was made—abrogation of the clause in the contract which forbade the older organizations in their contracts with the government.

That possibility would mean a saving of hundreds of thousands of dollars to the railroads, it was said.

Other changes in the proposed settlement demanded granting of the original wage increase called for in the strike announcement, to be effective upon the return of the men to work, with hour, overtime and time and a half for overtime, Sundays and holidays, and double time for overtime on Sundays and holidays.

Breaks in Insurgent Ranks

In addition to the gradual improvement in the situation in the Chicago district, which the brotherhood officials said presaged a return to normal throughout the country, the strike at Columbus, Akron, Ohio; Port Wayne, Ind.; Saginaw, Michigan; and marking definite breaks in the strike at Erie, Baltimore and Ohio; and Akron, Canton and Youngstown railroads voted at a mass meeting to return to work 250 of the 300 strikers at Port Wayne voted to return to the work this morning and the remaining workers, employees of the New York Central, will meet today to decide their course.

At Saginaw 100 Pere Marquette switchmen decided to return to work today and volunteered to go to Detroit, Toledo, Indianapolis and Flint to aid in restoring normal service. In the far west and various other cities in the middle west local unions voted not to strike. Seattle, Tacoma, Everett and Auburn, Wash., and Cincinnati, Little Rock, Ark., Memphis and St. Joseph, Mo., switchmen registered their intentions.

At Madison, Wis., and Superior, Wis., workers decided to continue at work and at St. Paul, Minn., the Brotherhood of Railroad Trainmen Association at St. Paul and conditions were improved. The company's engineers voted to return to work.

The first vote on a sympathetic strike in Canada was a negative. The Montreal Switchmen's Union of Canada voted not to strike.

At Erie, Pa., where the Erie Railroad is operating, the Erie Railroad voted to resume work.

Radicals Claim Victory

Despite these reports, however, radicals claimed "we are going to win."

At Erie, Pa., where the Erie Railroad is operating, the Erie Railroad voted to resume work.

ELEVATED TRAIN PLUNGES TO STREET

NEW YORK, April 12.—A Ninth avenue elevated train jumped the track today while running past Trinity church and one car fell to the street.

The accident occurred when two trains crashed into one another. The cars immediately burst into flames and hundreds were summoned from fire hospitals. The crash occurred at a time when trains were crowded with workers bound for the financial district.

More than a dozen persons were reported injured.

Police reserves were summoned to keep back crowds from the scene of the accident which occurred near a switch between Albany and Reister streets.

There were reports that the motor-man and a woman passenger on an express train which crashed into an empty local at the switch, had been killed, but the police reported that only the motorman was missing.

7 Killed, 200 Hurt In An Explosion At Munition Dump

BERLIN, April 12.—Seven persons were killed in yesterday's explosion at Kilmstein, according to dispatches received here.

LONDON, April 12.—Two hundred persons injured in the explosion of a munition dump at Kilmstein, near Koenigsburg, East Prussia yesterday, have been reported, according to a Berlin dispatch to the Daily Mail. Explosions are continuing, and rescuers are unable to approach the scene only in armored cars.

Fires were being removed from big railway shells at the dump when one was ignited in some way and 30 tremendous explosions followed, wrecking dwellings over a wide area.

LEGAL PROCEEDINGS AGAINST CREEL AND BABSON ARE RECOMMENDED BY COMMITTEE

WASHINGTON, April 12.—Legal proceedings by the government against George Creel, former chairman of the committee on public information, Roger W. Babson, of Wellesley Hills, Mass., and others concerned in the transfer of the committee were recommended today by Senator Smoot, Republican, Utah, chairman, and Representative Kels, Republican, vice-chairman, of the printing committee.

The report charges that Babson obtained the "bulletin" in March, 1919, by "secret connivance" with Creel and others "without the government receiving a cent in compensation" and urges that suit be brought to obtain "just compensation" for the government.

Numerous abuses in government publications including army and navy war service journals, are charged in the report. Many of these publications, it says, were used for propaganda favorable to the League of Nations, the higher interests and officers in charge. Advertisements, the report asserts, included "get rich quick" and "speculations" and political propaganda improper in government publications.

Another alleged abuse of government funds charged by the report was printing of 30,111,222 speeches of federal officials at an expense of \$422,798 to the government. Paper consumed totaled 1,551,000 pounds. As members of congress must pay for the copies of their speeches the report says.

The general principles in what is known as the Kansas case of industrial relations law, the labor committee asserted, "are principles that are so fundamental as to be repugnant to the very American concept of justice, freedom and democracy."

"The secondary strike" or boycott, the report stated, has been resorted to by tactics of employers left to labor no other course.

Defending the right of government workers to organize the labor committee said the right of such workers to strike "should be maintained, but there should never be occasion to use it."

Acceptance of the eight-hour day and the six-day week, with Saturday half holiday.

Recognition of American wage earners' right to organize in accordance with their own judgment.

Continued exemption of labor organizations from anti-trust laws.

Acceptance of the right of employees to choose their own representatives from within or without the plant.

Recognition of the right of employees to strike.

Abandonment of the use of the injunction in labor disputes.

Establishment of free federal employment agencies in the administration of which labor would have a voice.

Payment of such wages as to render old age and retirement benefits unnecessary.

Equal pay for equal work.

Minimum age of 16 years for employment of children.

Extension of federal workmen's compensation laws.

Elimination of company welfare and profit organizations and substitution of welfare work as conducted by labor organizations.

Other abuses of the industrial relations law, the report asserted, include the use of the Kansas case of industrial relations law, the labor committee asserted, "are principles that are so fundamental as to be repugnant to the very American concept of justice, freedom and democracy."

OPENING STOCKS

NEW YORK, April 12.—Extents of the week-end particularly the extension of the railroad strike, were reflected in the freer market at the opening of today's trading. Share prices and bond prices, the strong features of last Saturday's session, forfeited a point or more. Some of the oil, equipment, stock and rails reacted 1/2 to almost 2 points. Motors and their peripherals also slumped, the entire list becoming more unsettled within the first half hour.

WHERE THEY PLAY

Although income from advertising is going to be quite satisfactory for the coming season, the sports outfit consisting of a silk suit, or sweater and smart skirt or silk coat and knitted skirt are going to have a prominent place in every well dressed woman's wardrobe. The demand for passing of the sports costume was predicted several seasons ago, but the fashion failed as it has been showing, even now, it has been growing steadily in popularity and importance. Now it has reached dizzy heights, in fact, such heights that one must feel actually cramped before attempting to purchase more than one such outfit. Here are three which will attract the sports-minded girl.
